

AHMED IYAD YOUSSEF KHALIFA

Senior Full-Stack Developer

Sea St, Al-Mawasi, Khan Younis, Gaza, Palestine | ahmedjop501@gmail.com | +970 598411426

Portfolio: ahmedportfolio.free.nf | GitHub: github.com/Ahmedeyad7

PROFILE

Senior full-stack developer with over six years of production engineering experience, having built and deployed more than 50 real-world web applications and scalable platforms for regional and international clients — including live humanitarian fundraising infrastructure operated under active crisis conditions in Gaza. Specialist in Laravel, React.js, and relational database architecture, holding an MOEHE-accredited Web Programming and Development Diploma with an Excellent grade. Proven ability to design, build, and maintain complex production systems end-to-end — from database schema to payment integration to deployment — under demanding real-world constraints.

TECHNICAL SKILLS

- Backend: PHP (Laravel Specialist), RESTful API Engineering, MVC Architectural Pattern
- Frontend: JavaScript (ES6+), React.js, jQuery, Responsive UI Development
- Database: MySQL, Eloquent ORM, Query Optimization, Relational Schema Normalization
- Authentication & Payments: JWT, OAuth, Stripe, PayPal
- Practices: ACID-Compliant Data Design, High-Concurrency Production Systems, API Contract Design

KEY PROJECTS & EXPERIENCE

Senior Full-Stack Developer — Freelance — Regional & International Clients

5+ Years

- Engineered and deployed 50+ production web applications and scalable platforms across commercial and humanitarian sectors, maintaining live systems through active conflict conditions, displacement, and sustained power infrastructure loss.
- Built and maintained Palestine Fundraiser (palestinefundraiserteam.wuaze.com), a live donation and crisis-relief coordination portal, alongside additional humanitarian aid distribution tools deployed during the Gaza crisis.
- Architected relational database schemas using MySQL with Eloquent ORM, applying query optimization and indexing strategy to maintain data integrity under high-concurrency production load.
- Designed and implemented RESTful API contracts, JWT and OAuth authentication pipelines, and Stripe/PayPal payment processing integrations across client-facing production systems.
- Built responsive front-end architecture using React.js and modern ES6+ JavaScript, alongside jQuery-based legacy system maintenance.

Remote Work & Freelancing Bootcamp Graduate — EFE Palestine

June 2026

EDUCATION

Computer Systems Engineering — Al-Azhar University — Gaza

Studies disrupted by wartime destruction of academic infrastructure

Training Diploma in Web Programming & Development — Hams Training Center

2022

Accredited by the Palestinian Ministry of Education & Higher Education (MOEHE) — Grade: Excellent — 230 Training Hours

Secondary School Certificate (Tawjihi, Scientific Stream) — Ahmed Yassen Secondary Boys School — Rafah

2021

Overall GPA: 81.3% (569/700) — Information Technology 90/100, Chemistry 87/100, Physics 84/100, Arabic 84/100, Mathematics 155/200

LANGUAGES

- Arabic — Native
- English — Good Working Technical Proficiency
